13. MBD 9: CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
   a. take all reasonable steps to prevent such abuse;
   b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
   c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

PART B– TERMS OF REFERENCE
16. TERMS OF REFERENCE

1. PURPOSE

uThukela Water (Pty) Ltd seeks to appoint a transactional advisor for the purpose of capital raising, investment specialists, deals structuring, business case development, feasibility study development, project designs, revenue enhancement, property development specialists, and property valuers for a period of 3 years.

2. BACKGROUND

uThukela Water (Pty) Ltd is a multi-jurisdictional municipal owned entity established by Newcastle Local Municipality, Amajuba, and uMzinyathi District Municipalities. The relationship between the entity and its shareholders is governed by Water Service Authority/Water Service Provider (WSA/WSP) agreements. The WSA/WSP agreements are output based and express the level of expected services by both Parties, with the aim to ensure a sustainable bulk water provision.

The Entity operates as a bulk water service provider to its shareholder municipalities. From its two main water treatment plants, the entity delivers bulk water services from raw water abstraction, which is treated and then distributed to its shareholder municipalities at bulk metered points.

3. THE PROBLEM STATEMENT

Since the development of the entity’s water infrastructure, there has been, and continues to be, massive developments and population growth that exerts pressure on the capacity of the infrastructure to meet the growing demands. Further, bulk of the infrastructure has aged, with some having reached their design lifespan. This necessitates the need for infrastructure upgrades, replacement, and development of new alternatives.

The water services infrastructure requirements for the region are encapsulated in the entity’s Bulk Water Infrastructure Master Plan (BWSMP), which is its cornerstone of its service delivery planning model.

In order to ensure a unified approach to bulk water master planning in the region, the BWSMP has been developed in alignment with the National, Provincial and Universal Water Axis Development Plans.

However, due to various capacity constraints, the rollout of the BWSMP is yet to be realized, albeit the known increasing risk of infrastructure failure. It is for this reason that the entity now seeks to appoint a transactional advisor to assist in its quest to address the challenges.
uThukela Water (Pty) Ltd has identified specific capacity requirements that it seeks to bridge through external expert support. Amongst the fields of expertise currently required by the entity are listed in the table below. Tick services you are bidding for, there is no limit.
